RAVI KUMAR NERSU

Senior Software Engineer | Frontend-Focused Full Stack

Hyderabad, India | +91 98859 57899 | raviknersu96@gmail.com | linkedin.com/in/ravi-kumar-nersu-8a00b3163 | ravikumarnersu.com

PROFESSIONAL SUMMARY

Senior Software Engineer with 8+ years of experience building production web applications in React.js, Next.js and TypeScript, including 4+ years of hands-on full-stack work with Node.js, NestJS and AWS. Owned frontend architecture for a multi-market car-rental platform serving 15+ countries and roughly halved its page-load time and LCP. Strong in microfrontends, Backend-for-Frontend services, accessibility, web performance and testing.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Redux Toolkit, Redux Thunk, TanStack Query, Material UI, Storybook, HTML5, CSS3, microfrontends, monorepo, design systems, accessibility, Core Web Vitals

Backend and Data: Node.js, NestJS, Express.js, Backend-for-Frontend (BFF), REST, GraphQL, microservices, OAuth 2.0, OpenID Connect, JWT, RBAC, PostgreSQL, MongoDB, DynamoDB, MySQL, ORM

Cloud and DevOps: AWS (EC2, Lambda, API Gateway, IAM, S3, Elastic Beanstalk, RDS, CloudFront, CloudWatch), serverless, Docker, Kubernetes, GitHub Actions, CI/CD

Testing and Tooling: Jest, React Testing Library, Playwright, Cypress, Webpack, Vite, Babel, Figma, Git, Bitbucket, Jira, Agile/Scrum

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer (Specialist Software Engineer) | LTIMindtree **Jan 2024 – Apr 2026**

Client: Avis Budget Group | Hyderabad, India

- Owned frontend architecture and full-stack delivery for booking, search, forms, dashboards and CMS-driven rental experiences across 15+ country markets, built with React.js, Next.js and TypeScript in a microfrontend monorepo.
- Raised Lighthouse performance from ~45 to ~80 and cut page load from ~6s to ~3s, LCP from ~4.5s to ~2.2s and initial JavaScript from ~1.2 MB to ~800 KB through rendering changes, route-level code splitting, image optimisation and bundle analysis.
- Built reusable, accessible React components and design-system patterns from Figma; maintained Webpack, Vite and Babel builds.
- Developed Node.js and NestJS Backend-for-Frontend services and REST/GraphQL APIs secured with OAuth 2.0/OpenID Connect, JWT and RBAC, backed by PostgreSQL, MongoDB and DynamoDB.
- Deployed and supported serverless and cross-account AWS workloads (Lambda, API Gateway, S3, CloudFront, CloudWatch) and handled production debugging, monitoring and incident resolution.
- Added unit, integration and E2E coverage with Jest, React Testing Library, Playwright and Cypress in GitHub Actions CI/CD; mentored two junior engineers and reviewed code.

Senior Software Engineer | MSRCosmos LLC **Aug 2020 – Jan 2024**

Client: TM International Logistics Limited (TMILL) | Hyderabad, India

- Delivered a business-critical Railways application for TMILL, including a responsive 10-step Material UI workflow to create, edit, review and approve logistics jobs.
- Built accessible React.js and TypeScript interfaces with reusable components and Redux/Redux Thunk state flows from Figma designs.
- Developed Node.js and Express.js REST APIs with OAuth 2.0/OpenID Connect and JWT/RBAC, using ORM-based data access over PostgreSQL and MySQL.
- Deployed services on AWS (EC2, Elastic Beanstalk, RDS, S3) with Docker, Kubernetes and CI/CD; wrote automated tests with Jest, Playwright and Cypress.

Frontend Web Developer | Allmvr **Aug 2019 – Aug 2020**

Vijayawada, India

- Built customer-facing and admin React.js applications for a local-commerce platform connecting customers with nearby stores and restaurants.
- Developed responsive React and TypeScript components with React Router, Redux Toolkit and Material UI, including multi-level registration and authentication flows.
- Delivered store administration, catalogue CRUD and order history over REST APIs backed by MySQL.

Software Engineer | WhatsScore Pvt Ltd **Jun 2017 – Jul 2019**

Hyderabad, India

- Built sports-tournament web and mobile features with React.js, JavaScript, Redux, React Router and SASS.
- Developed reusable components and Redux state for tournament setup, registration, scorer assignment, matches, draws and player dashboards.

EDUCATION

Bachelor of Technology, Computer Science and Engineering | KL University **2013 – 2017**
